

## Special Issue

# The Complexity of Sustainable Project Management

### Message from the Guest Editors

Project management is faced with unique and new challenges; not only do they need to be fiscally sound, but they also need to be socially and environmentally sustainable. The aim of this Special Issue is to cover the broad range of topics involved in sustainable project management and will focus both on projects that deliver sustainable goods or services and on projects delivered following sustainable processes. Research areas may include but are not limited to the following:

- Sustainable project management and the business case for sustainability
- Evaluating the impact and integration of sustainability in project management tools and techniques
- Critical factors, best practices and determinants for effective sustainable project management implementation
- Project managers and the tradeoffs between sustainability-related objectives in decision making
- Innovative sustainable project practices and applications

---

### Guest Editors

Prof. Dr. Avraham Shtub

Dr. Claudio Szwarcfiter

Dr. Ran Etgar

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
