

Special Issue

Vegetation Management, Conservation of Historic Structures and Biodiversity

Message from the Guest Editors

The aim of this Special Issue is to give an updated view of the state of the art in botany and cultural heritage, highlighting the main aspects related to the positive and negative roles that vegetation plays in archaeological areas, as dangerous, historic, ornamental, and symbolic, but also natural, components.

In this way, the Special Issue can help to improve this conservation topic, paying attention to the ecological, and in particular the botanical, approaches applied to the conservation and valorization of historical and natural cultural heritage. This aspect often is treated separately and in a dispersive way; instead, this Special Issue will represent one collection that is easy to find and to consult, which could become a point of reference in the future.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
