

Special Issue

Sustainable Design in Construction and Manufacturing

Message from the Guest Editor

As time goes by, natural resources are impacted by human activities. Some of these activities can significantly affect the natural environment. The negative effects include soil depletion, soil erosion, and global climate changes. Sustainable development as well as sustainable construction are key concepts for the establishment of green construction and for providing environmentally friendly solutions in this field in the future. While both global population and the demand for natural resources are steadily increasing, buildings are becoming taller and more complex to fulfill human requirements. In this context, the development of particular urban spaces and the construction of luxurious building may have a considerably negative impact on green environment. Keywords

- natural resources
- human activities
- sustainable construction
- environmentally friendly solutions
- green construction

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon
School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
