

## Special Issue

# Facets of Sustainability in Construction Informatics and Project Management

### Message from the Guest Editors

This Special Issue evaluates how digitalisation and applications of construction information technology is impacting sustainability both positively and negatively. It also analyses the aspects of project management and how it can contribute towards enhancing sustainability.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
