

Special Issue

Managing Construction Organisations for Sustained Performance

Message from the Guest Editors

In this Special Issue, we aim to focus on the broad topic of “Managing Construction Organisations for Their Sustained Performance”. We seek creative and systematic studies that provide knowledge of solutions to the performance issues of construction organisations. Manuscripts should explicitly be directed towards enhancing the sustainability of construction businesses. To achieve competitive advantages, it is imperative that they re-engineer their internal processes to reflect pressures exerted by their current external operating environments. The following topics will be relevant to the constituent theme: strategic decision making/management, performance systems and management, knowledge management, business process re-engineering, planning and forecasting, stakeholder management, and supply chain management.

Guest Editors

Prof. Dr. James O. B. Rotimi

School of Built Environment, College of Sciences, Massey University, Albany Campus, Auckland 0632, New Zealand

Dr. Funmilayo Ebun Rotimi

Built Environment Engineering, School of Futures Environment, Auckland University of Technology, Auckland 1010, New Zealand

Deadline for manuscript submissions

closed (30 September 2022)

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
