

Topical Collection

Contemporary Challenges to the Sustainable Development of Agriculture and Rural Areas

Message from the Collection Editors

This Issue welcomes papers related to existing and potential challenges regarding agriculture, considering spatial differences in its development, as well as measures taken under policies. The Issue particularly encourages a multidisciplinary approach to problems and challenges related to agriculture, its role, sources of growth, and relations with global phenomena, including climate change. The area of interest of this issue comprises challenges related to sources of growth in agriculture, changes in the role of the agri-food sector, mechanisms for overcoming structural barriers to the development of agriculture and rural areas, building competitive advantages, convergence processes in agriculture, implementing the concept of sustainable development and green growth, investigating the role and effects of innovation in agriculture, as well as determining the role of farms towards climatic challenges. The Special Issue will include the following topics: Economics of agricultural resources; Sustainability of the agriculture sector; Competitiveness and innovativeness of the agri-food system; Role of the agriculture sector in regional and rural development.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief
