

Special Issue

Tourism in Times of Crisis—Is There a Sustainable Future?

Message from the Guest Editors

This Special Issue focuses on the debate of crises in tourism, resilience and sustainable solutions, addressing a broad set of questions, including aspects related to tourism planning, management and marketing in a time when the tourism industry is facing several disruptive events that are generating crises as never seen before. The analysis of the impacts of tourism crises and the strategies for recovery in order to achieve a more resilient industry are also considered in this Special Issue. Several perspectives on this debate are welcomed: i) quantitative and qualitative research, ii) conceptual and empirical articles, iii) discussions focusing on the economic, social, cultural, environmental and technological aspects of the sustainable development of tourism, iv) debates on policies and strategies to recover from crises along with other relevant analyses or problems can be addressed.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief
