Cultural Crossovers and Social Sustainability

Message from the Collection Editor

The New Agenda for Culture published in May 2018 by the European Commission embraces an innovative approach to the role of culture in the creation of social and economic value. In particular, it recognizes the importance of the relation between cultural production and participation, on the one side, and health and wellbeing, social cohesion, and innovation, on the other. Moreover, the Agenda also contemplates the possibility of other, significant possible forms of cultural crossovers that are not explicitly mentioned in the Agenda. Possible examples are environmental sustainability and education and lifelong learning, among many. More details at: https://www.mdpi.com/journal/sustainability/special_iss

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief
