

## Special Issue

# Advances in Sustainable Reprocessing, Repurposing and Reclamation of Mining Wastes, Industrial Wastes, and Anthropogenic Ores

### Message from the Guest Editors

This Special Issue tackles global challenges and advances in sustainable reclamation, remediation and management of mining and industrial wastes, and anthropogenic ores. The aim of the Special Issue is to highlight recent developments, emerging concepts and technologies applied to these ends for sustainable development and circular economy. We invite experimental and review papers discussing resource recovery, particularly of critical and strategic metals, battery materials, metals for low carbon society, and precious metals from mining wastes, tailings, low-grade ores, fly ash, slag, wastewater, or AMD. Articles covering decontamination, treatment, and management of mining and industrial wastes, and contaminated soil or sediments with the view of de-risking or stabilising these materials are highly encouraged.

### Guest Editors

Dr. Richard Diaz Alorro

Dr. Kazutoshi Haga

Dr. Manis Kumar Jha

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
