# Application of Big Data in Sustainable Transportation

### Message from the Guest Editors

With the rapid development of big data, the perception, prediction, and decision making of passenger and freight traffic flow through big data technology have been studied a lot. However, new thought and explorations are still needed in terms of attaining sustainable transportation. Big data technology can peek into the hidden knowledge in a large amount of data through the analysis of full samples to achieve scientific analysis, prediction, and decision making. For sustainable transportation at the micro level, intelligent perception, prediction, decision-making technology of traffic lights, parking lot information, traffic flow control, and vehicle–road coordination, automatic control, automatic driving, as well as regional development planning, transportation management, transportation planning, transportation safety, traffic emissions, and double carbon at the macro level all have important value and significance.

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
