

Special Issue

Smart Manufacturing for an Integrated Model of Industry 4.0 and Industry 5.0

Message from the Guest Editors

This Special Issue aims to bridge cutting-edge automation (IoT, AI, robotics) with human-centric, sustainable approaches. Your expertise in manufacturing/industrial AI/cobotics/sustainable manufacturing, would greatly enrich this discourse. Topics of interest include the following:

1. Converging Technologies for Hybrid Smart Manufacturing
2. Collaborative Intelligence in Manufacturing
3. Sustainable and Resilient Integrated Manufacturing
4. Hyper-Personalization and Ethical Manufacturing
5. Workforce Evolution in Integrated Factories
6. Cybersecurity and Trust in Hybrid Systems
7. Implementation Roadmaps and Case Studies
8. Future Horizons and Disruptive Paradigms

We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
