Special Issue

Data and the Built Environment: Reconciling Resources and Information for a Sustainable Living

Message from the Guest Editors

The aim of this Special Issue is to gather contributions from the wider spectrum of academic research related to the built environment, both across scales (from the individual building or component, to entire cites and regions) as well as systems (e.g., occupant's and user's behaviour, urban forms, and urban metabolism). The thematic range is left intentionally broad to facilitate and encourage the submission of works that are inherently multidisciplinary in nature, provided that any methodological component of the work relying on datadriven and machine learning methods is made strongly evident.

Guest Editors

Dr. Bernardino D'Amico

Dr. Suha Jaradat

Dr. Masoud Sajjadian

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
