

Special Issue

Sustainable Future: Circular Economy and Green Industry

Message from the Guest Editors

The transition to a circular economy and the development of green industries are critical to achieving a sustainable future in the face of global environmental challenges. Green industries, powered by eco-innovation and clean technologies, play a key role in this transformation, enabling sustainable production systems that reduce carbon footprints and foster long-term resilience. This Special Issue, “Sustainable Future: Circular Economy and Green Industry”, aims to bring together cutting-edge research that examines the integration of circular economy principles and green industrial practices in driving sustainability. We welcome submissions that explore multidisciplinary approaches, including advanced technologies, policy frameworks, and practical applications, to address challenges and opportunities in this evolving field. We encourage submissions of original research articles and comprehensive reviews that advance the knowledge and practice of building a sustainable future through circular economy and green industry innovations. We look forward to receiving your contributions. Kind regards,

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
