

## Special Issue

# Psychological Well-Being from the Perspective of Sustainable Development: Second Edition

### Message from the Guest Editors

In this Special Issue, original research articles and review papers are welcome. We particularly encourage interdisciplinary and cross-cultural studies, empirical research using validated scales, and theoretical contributions linking well-being to sustainability science. Research areas may include (but are not limited to) the following:

- Development and validation of psychometric tools to assess sustainable well-being;
- Studies on eco-anxiety, sustainable happiness, environmental engagement, and sense of community;
- Mental health and pro-environmental behavior;
- Psychological resources in climate adaptation and environmental activism;
- Educational and community interventions promoting psychological well-being and sustainability;
- Cross-cultural comparisons of psychological well-being in sustainable contexts;
- Methodological innovations in assessing psychological indicators of sustainability;
- Policy implications of psychological research in sustainability.

---

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
