# Psychological Well-Being from the Perspective of Sustainable Development: Second Edition

# Message from the Guest Editors

In this Special Issue, original research articles and review papers are welcome. We particularly encourage interdisciplinary and cross-cultural studies, empirical research using validated scales, and theoretical contributions linking well-being to sustainability science. Research areas may include (but are not limited to) the following:

- Development and validation of psychometric tools to assess sustainable well-being;
- Studies on eco-anxiety, sustainable happiness, environmental engagement, and sense of community;
- Mental health and pro-environmental behavior;
- Psychological resources in climate adaptation and environmental activism;
- Educational and community interventions promoting psychological well-being and sustainability;
- Cross-cultural comparisons of psychological wellbeing in sustainable contexts;
- Methodological innovations in assessing psychological indicators of sustainability;
- Policy implications of psychological research in sustainability.
