Special Issue

Open Innovation in Green Products and Performance Research

Message from the Guest Editors

We are pleased to invite you to participate in a Special Issue on open innovation in green products and performance research. The need for more sustainable development is an area that creates opportunities for scientists and business practitioners who strive to provide a competitive advantage through researching and implementing green innovations. It is also necessary to consider the participation of various stakeholder groups who can support sustainable development through their actions and involvement in open innovation and green products. These innovations are related to the concept of a circular economy, in particular with eco-design, activities for material and energy efficiency, extending product life cycle, and waste management. This Special Issue aims to explore and advance knowledge and practical applications of open innovation in the development and performance of green products to achieve sustainable development.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario Institute of Technology, Oshawa, ON L1G OC5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
