

Special Issue

New Insights into Resilient Cities under New Urban Crises

Message from the Guest Editors

We are seeking original reviews and research papers to enrich the scope of resilient cities, to measure urban resilience with novel approaches or data, and to inform urban planning and design from new perspectives. This Special Issue is open to call for papers covering but not limited to the following topics:

- New concepts, perspectives, or theoretical discussions of resilient cities under the context of new urban crises (e.g., pandemics, climate extremes, and financial and energy crisis);
- New measurements of urban resilience from different dimensions (e.g., social, economic, and environmental) using new methods or big data (e.g., human mobility and social media data);
- Examination of the spatial and temporal patterns of urban residence within urban areas across scales;
- Unequal vulnerability and resilience of socioeconomic population groups in unexpected events and disasters;
- Challenges and opportunities for developing the alleviation and adaptation strategies to inform urban planning and design.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
