

Special Issue

Sustainable Design Innovation

Message from the Guest Editors

We encourage the submission of any articles that can inform on these narratives, particularly submissions from the design community on how their work can inform sustainability practice, and from sustainability professionals on how sustainability can help to empower designers to more effectively create solutions that are inherently 'sustainable by design'. We welcome appropriately themed systematic reviews, applied research that considers the integration of sustainability and design methods, and any novel theoretical frameworks, methods and tools that can help ensure that design is well placed to engage with the sustainability challenge. Although an academic journal, we also acknowledge the important role of the design community in driving design methodologies to date and as being the true experts in design facilitation. Hence, we also welcome commentary articles from industry experts. If you are uncertain about whether your paper fits into the scope of this Special Issue, or are a non-academic seeking collaboration, please contact the editors.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
