

Special Issue

Digital Citizenship: Social Sustainability Perspective

Message from the Guest Editors

The development of the digital society and environmental challenges are intertwined along many lines. On the one hand, the digitalization of social life has led to concern not only about people's internet connection but also about their civic and responsible behavior on networks and their critical and active participation in the digital sphere. On the other hand, the environmental crisis has provoked individual and collective citizen responses, as well as global and local institutional policies that promote truly sustainable development for future generations. This special issue is open to contributions that raise questions in relation to this thematic crossroads: How digital technologies and approaches can contribute to sustainable transformation goals; How to use digital participation to achieve sustainability; How to foster citizen responsibility in sustainability issues from the digital sphere, etc.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
