# Digital Marketing and Digital Capabilities

## Message from the Guest Editor

The changing business ecosystem and the major transformations that organizations are experiencing today have a common denominator-digital transformation. The relevance of the phenomenon is well depicted by the so called "big data challenge". where digital capabilities, marketing practices, and IT architectures have to be redefined so as to properly extract value. The implications for organizations of both digital transformation and digital capabilities are enormous, and require the development of proper dynamic marketing capabilities for making and managing real-time data. Past literature on marketing capabilities have evolved from static and internallydriven approaches, to more dynamic, open, and outside-in approaches rooted in the theory of dynamic capabilities, seeking the development of marketing capabilities able to respond to a fast-changing environment. The objective of this SI is to analyze how companies are adopting digital technology and marketing capabilities to gain more insight into the factors concerned with the sustainability of business models and actions on the internet.

## **About the Journal**

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

#### **Author Benefits**

## Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

## **High Visibility:**

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
