Digital Technologies and the Internationalization of SMEs

Message from the Guest Editors

Digital technologies can be broadly defined as electronic tools, systems, devices and resources that generate, store, or process data. They manifest in the form of three distinct, but related, elements—digital artifacts, digital platforms, and digital infrastructures (Nambisan, 2017). Digital artifacts are digital components, applications, or media content that are part of a new product (or service) and offer functionality or value to the end user. Digital platforms are shared, common sets of services and architecture that serve to host complementary offerings, including digital artifacts. Digital infrastructures, in turn, are defined as digital technology tools and systems that offer communication, collaboration, and/or computing capabilities to support innovation and entrepreneurship (Nambisan, 2017: 1031–1032). Previous research reveals links between digitalisation, internationalization and sustainability in the context of SMEs (Isensee et al., 2020; Ayuso and Navarrete-Báez, 2018).

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
