

# Topical Collection

## Digitalization and Sustainable Development

### Message from the Collection Editor

You are invited to submit your paper to this Topical Collection, which is devoted to a wide range of questions related to digitalization processes that inevitably affect the sustainable development patterns in organizations, industries, and regions. The collection will focus the following problems: digitalization, internationalization and digitalization, e-commerce, industry 4.0, cybersecurity, e-government, energy transformations toward sustainability, smart grids, digitalization and the circular economy, knowledge management, digitalization and education, and a wide range issues related to digital entrepreneurship and sustainable development of industries and countries. The purpose of the Topical Collection is gather studies revealing and discussing contemporary challenges to sustainable development on the levels of organizations, industries, societies, and countries.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
