# **Special Issue**

# Intensification of Digitization Tools, Their Development and Applicability

# Message from the Guest Editors

The current trend in manufacturing and production systems is a digitization and its means. Thanks to the implementation of this trend, it is possible to plan, design, implement and optimize production and business processes more efficiently. Whoever wants to be able to compete at present and maintain their position in the markets is forced to accept this philosophy and implement it in their processes, both production and non-production. Based on it, Business processes that are currently supposed to work optimally must be flexible and adaptable to changes in the environment and user habits of customers. Mapping and sharing them is both scientifically and practically important. Accordingly, we would like to invite you to submit your research paper. This Topic seeks highquality works focusing on the following topics: Automation, digitization of industrial resources; Digital and virtual technology and its applications; The impact of industry on the life cycle of companies and products; Models of business systems and processes; Project, innovation and production management; Production systems and processes; Logistics and supply chain management; Trends in economics, etc.

# **About the Journal**

# Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

### **Author Benefits**

# Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

# **High Visibility:**

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
