# Dry Port Management and Sustainable Regional Development

### Message from the Guest Editors

This SI is intended to present the latest research in the area of dry ports. We encourage papers on all aspects of qualitative and quantitative research related to dry ports, such as:

- Dry ports for sustainable regional development;
- Dry ports from environmental, social, and economic perspectives;
- Dry port network design for sustainable transport;
- Regulatory issues related to dry ports implementation, operations and ownership:
- Policy measures concerning the dry ports;
- Sustainable hinterland transport via dry ports/inland ports;
- Hinterland transport actors and their roles for dry ports/ports;
- Stakeholders and their role in dry port management;
- Rail and inland waterway development and involvement in intermodal transportation via dry ports;
- Information technological solutions related to dry ports;
- Seaport expansions and infrastructure connections to dry ports;
- Optimization of dry port functions;
- Design and development of dry ports (subsystems, physical characteristics, layout);
- Tools for dry port location optimization;
- Dry port efficiency evaluation;
- Dry port establishment in developing economies;

# **About the Journal**

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Editor-in-Chief

#### Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario Institute of Technology, Oshawa, ON L1G OC5, Canada

### **Author Benefits**

#### **Open Access:**

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### **High Visibility:**

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

#### **Journal Rank:**

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
