

Special Issue

E-transportation for Future Sustainability

Message from the Guest Editor

Driven by the global campaign against climate change, the market of electric-powered transportation systems has boomed across the world in recent years. In that context, batteries play an essential role in propelling electromobility. A significant transition toward electric transportation relies upon battery innovation and secure materials for its design and development. The expanding selection of electric vehicles (EV) brings about a critical interest in battery design. There are also various difficulties in providing an increasing supply of EV batteries. The main goals of this Special Issue are as follows:

- To encourage researchers, academicians, and industry experts to prioritize electric vehicle systems.
- To disseminate high-quality research works and advancements in electric vehicles and battery technologies and infrastructure.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
