

Special Issue

Opportunity-Driven Female Entrepreneurs in Emerging Economy

Message from the Guest Editors

Dear colleagues, The active participation of women in all aspects of life is central to the United Nations Sustainable Development Goals (SDGs) 2030.

Sustainable Development Goal 5 seeks to achieve gender equality and empower all women (and girls). In this context, scholars widely acknowledge the vital role of women's entrepreneurial activities in sustainable economic development. Besides economic growth, women entrepreneurs contribute to the societal improvement of regional communities. Consequently, research on female entrepreneurship has been the center of academic and managerial attention. For this Special Issue, we seek conceptual and/or empirical research on how opportunity-driven entrepreneurship has been supported at the individual, organisational, regional, or national level, with special emphasis on entrepreneurial ecosystems and the role of higher education herein. Quantitative studies, conceptual and qualitative (e.g., narratives, multiple cases, experiments) papers are welcome. Papers should make an important theoretical contribution, combined with an appropriate methodological design and strong policy recommendations.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief
