

Special Issue

Sustainable and Smart City: Planning for Resilience

Message from the Guest Editors

Urbanization is progressing at an unprecedented rate, making the development of sustainable and resilient cities a crucial challenge for contemporary society. This Special Issue, "Sustainable and Smart City: Planning for Resilience", aims to address this challenge by exploring innovative strategies, technologies, and policies that improve the sustainability and resilience of urban environments. It facilitates the exchange of ideas and knowledge among researchers, practitioners, urban planners, and policymakers in order to contribute to the development of smart, sustainable, and resilient cities. The focus of this Special Issue is to investigate the integration of smart technologies and sustainable practices in urban planning to foster resilience against environmental, social, and economic tasks. It emphasizes multidisciplinary collaboration for developing holistic solutions to urban resilience challenges.

- Smart infrastructure;
- Smart technologies;
- Sustainable urban planning and design;
- Climate resilience and adaptation;
- Energy efficiency;
- Renewable resources;
- Green spaces and biodiversity;
- Social resilience and equity;
- Risk management;
- Policy and governance;

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
