

Special Issue

Electronic Waste Management and Sustainable Development (2nd Edition)

Message from the Guest Editors

E-waste (electronic waste), also known as waste electrical and electronic equipment (WEEE), has become one of the fastest growing waste streams worldwide. The e-waste problem has attracted attention from many countries and regions of the world. Thus, it is of strategic significance for policymakers and practitioners to find solutions capable of overcoming the e-waste barriers and challenges, achieving sustainable e-waste management.

This Special Issue intends to draw attention to the need for the addressal of e-waste management problems from diverse perspectives. Research areas may include (but are not limited to) the following:

- E-waste management policies and initiatives;
- Technologies and innovations in e-waste recycling, recovery, and treatment;
- Strategies and methods in e-waste collection, reduction, and recycling;
- Strategic/operational planning and decision making in the e-waste recycling industry;
- Economic, environmental, and health impacts of e-waste;
- Circular economy, low-carbon development, and zero-waste cities;
- E-waste management in the digital age

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
