

Special Issue

Industry 4.0 and Application of Artificial Intelligence System in Operation Management

Message from the Guest Editor

In this Special Issue, original research articles and comprehensive reviews are welcome. We encourage submissions that explore, but are not limited to, the following research areas:

- Digital Twins Development
- Life Cycle Analysis Applications in Manufacturing
- Industry 4.0 and Sustainable Manufacturing
- Application of Artificial Intelligence in Operation Management
- Lean Manufacturing Techniques for Sustainable Production
- Green Optimization Strategies
- Circular Economy Models in Manufacturing
- Case Studies of Sustainable Manufacturing Practices
- Quantitative and Qualitative Metrics for Sustainability Assessment
- Barriers and Drivers of Sustainable Manufacturing Adoption
- Technological Innovations Supporting Sustainable Practices

I look forward to receiving your contributions and fostering a rich dialogue on sustainable practices in manufacturing. Together, we can advance knowledge and foster actionable insights that contribute to a more sustainable future. Join us in this important endeavor to promote sustainability within the manufacturing sector.

Guest Editor

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
