Environmental Friendly Architectural Construction and Materials

Message from the Guest Editors

During recent years, there has been growing worldwide concern, due to the notable increase in pollution levels. The construction sector is directly responsible for this situation: buildings are large energy consumers, and during their construction or rehabilitation phases, they generate a huge amount of waste which, in most cases, is not managed effectively. In that sense, and due to the creation of directives and regulations, several researchers have focused on the development of eco-efficient architecture constructions. They try to design sustainable buildings by reducing their energy consumption, their harmful emissions, or the amount of waste generated during their works...

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon
School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
