

Special Issue

Ecological Innovation: Sustainable Development

Message from the Guest Editor

This Special Edition accepts studies that consider the environmental, social, and economic aspects of innovation and its development at different levels, from the perspective of products, processes, companies, sectors, supply chains, regions, or economies. In this context, studies on eco-innovation are acceptable as a positive change aimed at making significant or visible progress toward sustainable development by reducing environmental impacts or achieving a more efficient and responsible use of natural resources. It will also be open to studies dealing with eco-innovation focused on the re-use of natural resources according to the principle of the circular economy, as well as other related arguments in the form of specialized and interdisciplinary manuscripts.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
