## **Special Issue**

# **Environmental Life Cycle Assessment**

## Message from the Guest Editor

This Special Issue encourages the submission of research papers that utilize environmental life cycle assessment (LCA) methods to understand the environmental impacts of products and services. We welcome original research dealing with life cycle assessment approaches to understanding a wide range of topics. We specifically encourage submissions focusing on novel approaches to acquiring data necessary for LCA, unique applications of LCA methods to assess unconventional products/systems, and LCA applications to manufacturing and/or material systems. Papers submitted to this Special Issue will undergo a rigorous peer review procedure similar to other issues of Sustainability, with the aim of rapid and wide dissemination of research results, developments and applications.

## **About the Journal**

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

#### Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

#### **Author Benefits**

## Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

## **High Visibility:**

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
