

Special Issue

Sustainable Management and Application of E-Logistics

Message from the Guest Editor

Special Issue “Sustainable Management and Application of e-Logistics” aims to present the new business models and the e-commerce approaches in the management of logistics processes that will improve supply chain networks.

Authors are cordially invited to submit original research papers, review articles, and empirical studies. Manuscripts or papers can be submitted on the following topics:

- E-Logistics and e-Supply chain management
- New emerging business models
- e-Commerce logistics providers
- e-Procurement, blockchain and smart contracts
- e-logistics during crisis
- Direct-to-Consumer (D2C) fulfillment
- Mobile logistics
- Internet of Things and Internet of Everything
- Big data and artificial intelligence
- SaaS and cloud computing in supply chain networks
- Autonomous vehicles, robots, drones for product deliveries
- Simulation and modeling (digital twins)

Guest Editor

Dr. Dimitris K. Folinas

Department of Supply Chain Management, International Hellenic University, Thessaloniki, Greece

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada
