

Special Issue

The Mediating Role of Environmental, Social, and Governance (ESG) Orientation in Finance and Investments

Message from the Guest Editor

Sustainable investment and socially responsible investment have become a major issue for investors around the world. Investors have realized that they can make a difference in environmental, social, and governance (ESG) through their habits. This not only forces an adjustment of habits on the financial markets, but also an adaptation of managerial practices in companies. The purpose of this Special Issue is to report on this trend. Through articles of high scientific value, we would like to evaluate the moderating role of ESG on investment and finance.

The issue will be of interest to academics, practitioners, policy-makers, and by extension, the whole finance community.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA
