Special Issue

Environmental Science and Sustainable Waste Management

Message from the Guest Editors

Recently, increasing material consumption due to industrial growth has led to the rapid depletion of natural resources, including energy and raw materials.

Additionally, with increasing population, urbanization and economic development, especially in developing countries, waste generation is increasing sharply. For most of this waste, effective uses have not been found, causing environmental degradation, a waste disposal crisis, and resource depletion. Appropriate management of such waste is a deeply difficult technological challenge. Thus, sustainable waste utilization is a major concern for environmental protection and natural resource conservation.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
