

Special Issue

Sustainability for EV Batteries and Battery Materials: Optimization, Second-use, and Recycling

Message from the Guest Editors

We are organizing this Special Issue with the goal of finding sustainable solutions for EV batteries. The Special Issue will publish high-quality full research articles and reviews addressing the above topics.

Potential topics include, but are not limited to, the following research areas:

- Lithium-ion battery lifespan management.
- Lithium-ion battery second-use (reuse).
- Lithium-ion battery recycling.
- Degradation mechanisms and characterization methods.
- State of health (SoH) estimation, lifetime diagnosis, and prognosis methods.
- Experimental techniques for testing and characterization.
- Controllable synthesis of electrode materials.
- Structural design and regulation of commercial batteries.
- Enrichment methods of lithium, cobalt, nickel, etc. from failed batteries.
- Purification methods of the above valuable elements.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
