

## Special Issue

# Eco-Initiatives and Eco-Attitudes at Leisure Events

### Message from the Guest Editors

Sustainable event management requires all relevant stakeholders' informed participation and strong leadership to ensure broad participation and consensus building. Achieving sustainable event building is a continuous process that requires constant monitoring of impacts, introducing the necessary preventive and/or corrective measures whenever necessary. We welcome contributions focused on:

- Environmental attitudes, knowledge, intentions, and behaviors among leisure events' organizers, attendees, and spectators;
- Free-plastic leisure events;
- Ecolabeling and certification at leisure events;
- Environmental innovation at leisure events;
- Green (sport) events.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
