

## Special Issue

# The Effects of COVID-19 Shock on Sustainable Regional Development and Emerging Pathways toward Economic Recovery

### Message from the Guest Editors

In this Special Issue, original research articles and reviews are welcome. Research areas of interest may include (but are not limited to) the following:

- Economic impact evaluation of COVID-19 and epidemic prevention and control measures on different cities, regions or nations
- Impacts of COVID-19 on low-carbon economic transition and regional green economy development
- Innovation of disaster impact analysis models (e.g., input–output model, general equilibrium, econometric regression, big data techniques and synthetic models)
- The restructuring effects of COVID-19 on national, regional or global supply (or value) chains and the potential effects of value chain restructuring on regional development
- Political and economic instruments (e.g., tax reduction, consumption incentive, monetary policy) adopted by local and national administrations to mitigate economic losses
- The COVID-19 shock on supply chain resilience and the development of strategies for promoting higher supply chain resilience

### Guest Editors

Prof. Dr. Cuihong Yang

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
