

Special Issue

Economic Uncertainty, Infrastructure Development and Sustainable Tourism

Message from the Guest Editor

The tourism sector has grown significantly in the last couple of decades, and has become one of the major drivers of economic development, the accumulation of foreign exchange reserves, and the creation of employment for both skilled and unskilled labour. On the other hand, the tourism sector is also becoming more vulnerable to the increasing economic uncertainty domestically and globally. Given these facts, it is important to empirically investigate the roles of economic uncertainty and infrastructure development in the tourism sector. For further reading, please visit the [Special Issue Website](#).

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
