Special Issue

The Role of Education and Learning in Creating Agents of Change for Sustainability

Message from the Guest Editor

The purpose of this Special Issue is to address this apparent discontinuity by exploring how education and learning can support students of all ages develop the knowledge, skills, and values they will need to become agents of change for a more sustainable world. It acknowledges that such an education places special demands on learning, teaching, and assessment, and that these may, for example, fit particularly poorly within the confines of our current educational systems and institutions. Papers in this Special Issue may focus on addressing learning content, learning outcomes, pedagogies, and the learning environment; alternatively, they may wish to address the institutional or political challenges of delivering such an education. We welcome all types of research, including quantitative and qualitative approaches, case studies, reviews, and well-argued conceptual pieces.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario Institute of Technology, Oshawa, ON L1G OC5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
