

## Special Issue

# Effects of Climate Change on the Economics and the Sustainability of Marine Fisheries and Aquaculture

### Message from the Guest Editors

This Special Issue seeks to understand climate change impacts on the economics of marine fisheries and aquaculture. We invite papers focusing on analyzing the impacts of climate change on the economics and sustainability of marine fisheries and marine aquaculture. Further, papers that advise on potential solutions to climate impacts on economics and sustainable development of fisheries are welcomed.

- Climate change
- Marine fisheries
- Marine aquaculture
- Mariculture
- Fisheries economics
- Sustainable development
- Sustainable management
- Mitigation strategies
- Adaptation strategies
- Climate solutions

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
