

## Special Issue

# Electric-Drive Vehicles and Beyond: Assessing the Impact of Disruptive Technologies for Road Transportation

### Message from the Guest Editor

Dear Colleagues: In this Special Issue, original research articles and reviews are welcomed. Articles assessing the impact of end-use technologies such as Electric-Drive Vehicles (EDVs), lightweight vehicles and Connected Autonomous Shared Electric (CASE) vehicles on the transport sector and the energy system are welcomed. Submissions regarding passenger transportation and freight transportation are both welcomed. Approaches and methods for technology assessment may include (but are not limited to) the following:

- Energy-economics modeling.
- Life cycle assessment (LCA).
- Supply chain analysis.
- Energy and material flows assessment.
- Total cost of ownership evaluation.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
