

## Special Issue

# Emerging Transportation and Infrastructure Technologies and the Implications on Transportation Safety

### Message from the Guest Editor

The focus of this Special Issue is on the implications of transportation safety as a result of emerging transportation technologies and infrastructure. The scope of this Special Issue is on transportation safety while considering an emerging technology, infrastructure, or both for all models of transport. The intended audience includes academics, researchers, and practitioners in the area of transportation safety. All research methods and safety applications are welcome. The purpose of this Special Issue is to allow researchers to present innovative work regarding transportation safety implications due to emerging transportation technologies and infrastructure. This Issue will supplement current transportation safety literature by providing a venue that focuses explicitly on this relationship.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
