

## Special Issue

# Renewable Energy in Sustainable Agriculture

### Message from the Guest Editors

We hope that this Special Issue will serve as a platform for sharing information on new methods, procurement processes and technologies, practical applications, current analysis, findings, and experiences in research, revolving around topics such as biomass and biogas. We aim to promote research that contributes to the development, integration, and possible improvements of renewable energy technologies in different sectors, and encourage producers, planners and managers, researchers, practitioners, policymakers, and decision-makers to share their most recent findings. Specifically, we hope to share information and experiences regarding the benefits of using renewable energy.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
