

Special Issue

Energy Security and Sustainability

Message from the Guest Editors

This Special Edition on “Energy Security” encourages a diverse set of submissions. Topics include:

- Evolving definitions of energy security and metrics used to characterize them.
- Are security and sustainability mutually attainable or in conflict?
- Analysis of energy security and sustainability trends at the local, national, regional and global level.
- Changes in end-use technologies and how these may impact energy security and sustainability.
- Potential social and geopolitical changes associated with energy developments that impact energy security and sustainability.
- Institutional and governance issues associated with energy security and sustainability
- Information and Communication Technology (ICT) needs, including cybersecurity
- Sectoral approaches to energy security: supply/demand, power, industrial, buildings, transport
- International negotiations and treaties
- RDD&D needs

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
