Enhancing Sustainable Relationships

Message from the Guest Editors

This call seeks to collect papers looking into the topic of business and work relationships from multiple angles, especially in light of the growing importance of their impact on the sustainable development of organisations, markets, and communities. All of these relationships have been highly impacted by the ongoing COVID-19 crisis, bringing unprecedented change into current economic realities, as well as into business and work relationships, thus making room for a rapidly emerging line of research covering this new set of additional and highly dynamic challenges. In this sense, widely acknowledged as sustainable business development levers, long-term relationships, which are mutually beneficial at multiple levels (economic, social, and environmental), provide a fertile research ground for advancing novel insights into sustainable value creation, sustainable value sharing, sustainable business models, and related best practices.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits
