

## Special Issue

# Entrepreneurship and Intrapreneurship in Social, Sustainable, and Economic Development

### Message from the Guest Editors

Academia has recognized the importance of institutions not only for entrepreneurship but also for economic development. Yet, there is still much room to keep exploring how other sorts of entrepreneurial activities can enhance economic, social and sustainable development from an institutional perspective. Although entrepreneurship is diverse in terms of its types and nature, particular gaps might exist from sociodemographic characteristics, corporate dynamics, regional and national outputs, and environmental issues. This Special Issue invites scholars within all the main economics, management, and sustainability sub-disciplines, among others areas, to submit conceptual and/or empirical papers, which present cutting-edge research on entrepreneurship and intrapreneurship for sustainable development at the regional and national level.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
