

Special Issue

Environmental Sustainability of Manufacturing Processes and 3D Printing System

Message from the Guest Editors

The aim of this Special Issue is to collect the most relevant contributions on the environmental sustainability of manufacturing processes, both traditional and innovative. All the products and the materials can be presented and comparisons between traditional and innovative processes are welcome. Papers that explore the most innovative 3D printing technology and the most innovative materials, as well as the new applications of additive manufacturing different are in the field of interest of this Special Issue. A special interest is dedicated to the analyses which take into account also the use phase, when it is relevant (automotive, aerospace, marine sectors, etc.). We are looking forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
