# **Special Issue**

# Environmental Sustainability of Manufacturing Processes and 3D Printing System

### Message from the Guest Editors

The aim of this Special Issue is to collect the most relevant contributions on the environmental sustainability of manufacturing processes, both traditional and innovative. All the products and the materials can be presented and comparisons between traditional and innovative processes are welcome. Papers that explore the most innovative 3D printing technology and the most innovative materials, as well as the new applications of additive manufacturing different are in the field of interest of this Special Issue. A special interest is dedicated to the analyses which take into account also the use phase, when it is relevant (automotive, aerospace, marine sectors, etc.). We are looking forward to receiving your contributions.
