

Special Issue

Environmental Footprint Accounting and Management

Message from the Guest Editor

Considering the environmental pollution in many countries around the globe, the analysis and management of product systems and organizations with a focus on their supply chains has increased in the last decades. Therefore, this Special Issue intends to provide an overview of current environmental footprint methodologies as well as case studies focusing on footprints analyzing specific environmental issues like carbon and water footprints as well as the product environmental footprint of the European Commission, which considers 17 different environmental issues at the same time. Papers are welcome that discuss methodological (e.g. contradictions to other existing standards) as well as application (e.g. data gaps) challenges, opportunities/advantages of footprints, case studies as well as visions for future methodological development (e.g. social footprint) as well as possibilities for the application of existing footprints (e.g. for ecolabels).

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
